10 Reasons To Use Classroom:

1. Easy to learn- very little training required
2. **Intuitive, clean design**
3. Keeps work organized for students
4. **Full integration with Google Drive**
5. Simple way to get started with creating a paperless classroom
6. **Enhances communication with students**
7. Files are automatically duplicated for each student
8. **Integrates well with personal devices (Android & Apple)**
9. It's a Google product- expect continued improvements
10. **Allows you to focus on teaching & learning, not technology**

What the students say:

- It is way easier [than Moodle] to navigate through for looking up class assignments, checking due dates, and the ability to find professor's contact info and office hours.
- **I love that Google classroom gives me instant notifications on my phone when assignments or comments are posted.**
- It provides a to-do list of assignments in the order of their due dates to keep you on track and notice in Google Calendar.
- **This is my first time using it and I already like it way more than I do Moodle which I've had to use for years now.**

Classroom
by Google

What the students still say:

- I prefer Google Classroom because of its easy access, notifications, the ease of submitting assignments, and the option to download the app to make logging in easier.
- **What I like...is that whenever anything important is posted...you get an immediate notification in an email.**
- It's easy to answer surveys and class discussions.
- **The layout of google classroom is more organized than Moodle and lines up with all other Google accounts easily.**
